

Handout 2. Planning Intensive Intervention

Student Name: _____ Grade: _____

Teacher: _____ Area of Concern: _____

Briefly summarize the student's current intervention program in the space provided below.

--

Intensification Category 1: Change Intervention Dosage and Time

What changes have we already made?	Are there additional changes we should make (or combine with other strategies)?	What data suggest we should make these changes?

Intensification Category 2: Change the Learning Environment

What changes have we already made?	Are there additional changes we should make (or combine with other strategies)?	What data suggest we should make these changes?

Intensification Category 3: Integrate Strategies That Support Cognitive Processing in Combination with Academic Learning

What changes have we already made?	Are there additional changes we should make (or combine with other strategies)?	What data suggest we should make these changes?

Intensification Category 4: Modify Instructional Delivery

What changes have we already made?	Are there additional changes we should make (or combine with other strategies)?	What data suggest we should make these changes?

Summarize Your Plan

Prioritize intervention changes and note the person responsible for implementation	How will you monitor progress? Who is responsible for collecting data?	When will you meet to review and evaluate progress?
